## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system–

| <b>Title</b> | <b>CSR</b>         | <b>Division</b> | <b>Chapter</b> | <b>Rule</b>   |
|--------------|--------------------|-----------------|----------------|---------------|
| 3            | <i>Code of</i>     | 10-             | 4              | 115           |
| Department   | <i>State</i>       | Agency          | General area   | Specific area |
|              | <i>Regulations</i> | division        | regulated      | regulated     |

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

**T**he text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

**A**n important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. **I**f an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

**A**n agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

**I**f an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

**III. ASSUMPTIONS/WORKSHEETS**

The following general estimations were used to calculate private fiscal costs:

1. The proposed amendment corrects a technical rule error and clarifies the delinquency fee applicable to pharmacists with at least one (1) but less than two (2) delinquent continuing education (CE) hours during the pharmacist biennial renewal period.
2. Based on 2022 and 2024 pharmacist audit totals, the Board estimates approximately forty (40) pharmacists will be non-compliant and assessed the \$100 delinquent fee each biennial renewal period.
3. Significantly, the amended fee is only applicable to non-compliant pharmacists. No fee would be assessed for pharmacists who have completed required CE within the renewal timeframe.

This section will contain the final text of the rules proposed by agencies. The order of rulemaking is required to contain a citation to the legal authority upon which the order or rulemaking is based; reference to the date and page or pages where the notice of proposed rulemaking was published in the *Missouri Register*; an explanation of any change between the text of the rule as contained in the notice of proposed rulemaking and the text of the rule as finally adopted, together with the reason for any such change; and the full text of any section or subsection of the rule as adopted that has been changed from the text contained in the notice of proposed rulemaking. The effective date of the rule shall be not less than thirty (30) days after the date of publication of the revision to the *Code of State Regulations*.

**SUMMARY OF COMMENTS:** The Conservation Commission received comments from ten (10) individuals and one (1) organization on the proposed amendment.

**COMMENT #1:** The commission received comments from two (2) individuals who voiced general support for proposed changes to this rule.

**RESPONSE:** The commission thanks the individuals who provided input.

**COMMENT #2:** The commission received comments from one (1) individual who voiced general opposition to proposed changes to this rule.

**RESPONSE:** The commission thanks the individual who provided input.

**COMMENT #3:** The commission received comments from one (1) individual who voiced general opposition to proposed changes to this rule; however, specific comments were not related to the proposal.

**RESPONSE:** The commission thanks the individual who provided input.

**COMMENT #4:** The commission received comments from five (5) individuals who voiced opposition to proposed changes to this rule, and who stated increasing the minimum acreage requirement to be able to obtain no-cost Chronic Wasting Disease Management Permits is detrimental to CWD management efforts.

**RESPONSE:** The commission thanks the individuals who provided input. Although CWD Management Permits allow harvest of additional deer in CWD Core Areas to help manage CWD, harvest of deer on properties less than 20 acres in size represents a relatively small percentage of deer harvested using these permits. During the 2024 deer season, approximately 40% of properties enrolled to receive CWD Management Permits were less than 20 acres in size but resulted in only approximately 8% of deer harvested using these permits. As such, increasing the minimum acreage requirement from five (5) acres to twenty (20) acres will not have a significant effect on the number of deer harvested but will greatly reduce workload associated with administering the program. No changes have been made as a result of this comment.

**COMMENT #5:** The commission received comments from one (1) individual who voiced opposition to proposed changes to this rule, and who stated no-cost Chronic Wasting Disease Management Permits should be available to nonresidents.

**RESPONSE:** The commission thanks the individual who provided input. CWD Management Permits are available to both resident and nonresident hunters. A valid resident, nonresident, or landowner Firearms Any-Deer Hunting Permit, Firearms Antlerless Deer Hunting Permit, Archer's Hunting Permit, or Archery Antlerless Deer Hunting Permit is required as a prerequisite to obtain a CWD Management Permit. No changes have been made as a result of this comment.

**COMMENT #6:** The commission received comments from one (1) organization that voiced opposition to proposed changes to this rule, stating the acreage requirement for no-cost Chronic Wasting Disease Management Permits should remain at five (5) acres to allow small landowners to actively manage deer on their property.

**RESPONSE:** The commission thanks the organization who provided input. Although CWD Management Permits allow harvest of additional deer in CWD Core Areas to help manage CWD, harvest of deer on properties less than 20 acres in size represents a relatively small percentage of deer harvested on these permits. During the 2024 deer season, approximately 40% of properties enrolled to receive CWD Management Permits were less than 20 acres in size but resulted in only approximately 8% of deer harvested using these permits. As such, increasing the minimum acreage requirement from five (5) to twenty (20) acres will not have a significant effect on the number of deer harvested but will greatly reduce workload associated with administering the program. The statewide bag limit allows hunters to harvest two antlered bucks in Missouri. Archery antlerless permits can be purchased in any number, and hunters may harvest up to four (4) antlerless deer using a firearm in most Missouri counties. As such, liberal bag limits in most Missouri counties provide abundant opportunities to harvest deer even for hunters that do not qualify to receive CWD Management Permits. No changes have been made as a result of this comment.

#### **Chapter 2 – Licensing of Physicians and Surgeons**

##### **ORDER OF RULEMAKING**

By the authority vested in the State Board of Registration for the Healing Arts under section 334.125, RSMo 2016, the board amends a rule as follows:

##### **20 CSR 2150-2.125 Continuing Medical Education is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 15, 2025 (50 MoReg 1849-1850). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Twenty-two (22) comments were received by the board during the rule's public comment period.

COMMENT #1: Commenters included the Missouri Association of Osteopathic Physicians and Surgeons (MAOPS), the Missouri State Medical Association (MSMA), the St. Louis Metropolitan Medical Society, many physicians, a state representative, and a member of the public. All comments expressed opposition to the proposed rulemaking to mandate a nutrition-specific continuing medical education (CME) requirement for physicians. Commenters emphasized that nutrition education is already covered in medical school, residency, and ongoing practice, making an additional requirement redundant. Many argued that CME should remain self-directed and relevant to a physician's specialty, noting that nutrition may not apply to all areas of practice. Concerns were raised about increased administrative and financial burdens, time away from patient care, and the lack of evidence or cost-benefit analysis demonstrating improved health outcomes. Several comments also questioned whether the board should mandate specific CME topics, as this would depart from its historical practice and could create unnecessary regulation without clear benefit. RESPONSE: The present regulation requires a physician to complete fifty (50) hours of CME over two (2) years and does not specify that any of these CME hours must focus on a particular topic. The amended rule requires that, over the course of the required fifty (50) hours of CME, a total of one (1) hour must address the topic of the health benefits of nutrition. The rule does not require that an entire or separate one- (1-) hour course be devoted to nutrition; rather, the one (1) hour on nutrition may be a component or aspect of multiple courses, including those focused on a physician's specialty.

Although nutrition is part of medical education (and often required in secondary school and undergraduate education), the science of nutrition is not static. Regularly updating a physician's knowledge of this topic is neither trivial nor unimportant for patient care. The rule does not require physicians to be experts or specialists in nutrition or to go beyond their personal specialty or scope of practice, but it does help physicians be better informed about the health benefits of nutrition, which in turn helps them counsel, educate, and advise Missouri patients. Missouri residents rely on physicians for accurate and current information that affects their health, including nutrition.

Including nutrition in a physician's CME is part of Missouri's ongoing annual applications for federal Rural Health Transformation Program (RHT) funding, which will invest in rural healthcare services to improve access, quality, and outcomes, and demonstrates Missouri's commitment to strengthening rural health. On December 29, 2025, Missouri secured \$216 million of this federal funding in the first year. No changes have been made to the rule as a result of the comments.
